

LAB CRAFTERS ANNOUNCES ALBA MENDEZ JOINS AS DIRECTOR OF SUPPLY CHAIN

FOR IMMEDIATE RELEASE

June 15, 2021

Ronkonkoma, New York - Lab Crafters is pleased to announce that Alba Mendez has joined as their Director of Supply Chain beginning June 7, 2021. Mendez will direct all aspects of the organization's supply chain management and operations, including procurement, vendor relations, and supplier quality, and new product development procurement. She will be reporting to Bob DeLuca, Jr., President and CEO to help maximize efficiencies for our manufacturing operations.

"We're very excited to have Alba join the Lab Crafters team as Director of Supply Chain," said Bob DeLuca. "Alba has the right mix of experience, expertise, and energy to help us achieve our strategic goals."

Alba Mendez commented, "I am pleased to join Lab Crafter's senior management team and directly support strategic initiatives to generate increased growth, operational excellence, and cost reduction. What attracted me about this opportunity is the company's high synergy, innovative strategies, and dedication to achieving objectives. The products manufactured at Lab Crafter's are state of the art. I am impressed by Lab Crafter's devotion to quality, customer satisfaction, and manufacturing efficiency. Furthermore, I am confident Lab Crafter's proactive initiatives and passion will yield rapid expansion, satisfying growing customer demand."

Mendez has 10 years of experience with supply chain and operations, most recently with Leviton Manufacturing in Melville, New York as a Senior Manager of Global Supply Planning and Analysis. Alba has both bachelor's and master's degrees in Accounting from SUNY Old Westbury.

About Lab Crafters: Lab Crafters has enjoyed steady growth through the years by providing the highest quality products in the market and developing innovative designs. Lab Crafters introduced the first high performance, low velocity fume hood to the industry in 1997. The Air Sentry fume hood revolutionized fume hood performance paradigms and gave rise to safer and more efficient fume hoods. In 2012 Lab Crafters introduced I-FLEX, the first adaptable lab furnishing system that allowed point-of-service utilities to be easily moved and updated as the needs of the lab changed. Lab Crafters continues to stay on the leading edge of industry trends by conducting a significant amount of research with designers, architects, and user groups. Our fume hoods and furniture systems are the basis of design for countless high-end science and technology projects and Lab Crafters continues to evolve to meet the needs of research and science.
